Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

Claims 4-14 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim should refer to other claims in the alternative only. See MPEP § 608.01(n). Accordingly, the claims 4-14 are not been further treated on the merits.

Please change the "conclusion(s)" in page 8 to "claim(s)".

Specification Objections

The disclosure is objected to because of the following informalities:

Please change "conclusion" on the top of page 8 to read "claims".

Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "the decoration" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Art Unit: 1793

Regarding claim 1, the phrase "similar material" renders the claim(s) indefinite because the claim(s) include(s) elements not actually disclosed (those encompassed by "similar"), thereby rendering the scope of the claim(s) unascertainable. See MPEP § 2173.05(d).

Regarding claim 1, it is not clear as to what the "quantity" and "amount" is in terms of the amount needed.

Regarding claim 2:

Claim 2 is rejected as failing to define the invention in the manner required by 35 U.S.C. 112, second paragraph.

The claim(s) are narrative in form and replete with indefinite and functional or operational language. The structure which goes to make up the device must be clearly and positively specified. The structure must be organized and correlated in such a manner as to present a complete operative device. The claim(s) must be in one sentence form only. Note the format of the claims in the patent(s) cited.

Art Unit: 1793

“selected out of the group of” is not defining the claim in proper Markush terminology (i.e. selected from the group consisting of).

What is meant by the phrase “this means...”

Regarding claim 3, “selected out of the group of” is not defining the claim in proper Markush terminology (i.e. selected from the group consisting of).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by U. S. patent No. 6,357,868 to Pfaff et al.

Regarding claims 1-3, Pfaff et al. disclose a composition comprising inorganic solid, which can be selected from inorganic pigment, glass frit, glass flux and other glass forming material, and a medium. The medium is selected from paraffin or fatty acid et al (claims 1, 4, 6 and col. 3, line 7-34).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to SHUANGYI ABU ALI whose telephone number is (571)272-6453. The examiner can normally be reached on Monday - Friday.
